## A SUMMARY OF THE GU UG-CBCS

### What is UG-CBCS?

The undergraduate degree (UG) programme in the Choice Based Credit System (CBCS) will have courses spread across six-semester of any undergraduate degree Programme. Two consecutive (one odd one even) semesters will make up an academic year. An UG course shall be of Six Semester covering three Calendar Years (New Academic Session — October to September). The duration of the Odd Semesters (First, Third and Fifth) shall be October to march, and that of Even Semesters (Second, Fourth and Sixth) shall be April to September.

### How does it work?

The Course in GU UG-CBCS are categorized primarily into three types of course — Core, Elective, and Ability / Skill enhancement course. All the core and elective course will comprise of six (6) credits and the skill course are of four (4) credits.

## Core Course

**As the name** suggests, a core course is a necessary course that a student **MUST** take in order to complete the degree. The number of core course for Honours and Regular degree are deferent.

## Elective Course

Elective Course is the one for which a student has some kind of freedom to choose from a pool of courses. There are two kinds of elective course — Generic and Discipline Specific. The generic elective courses are those, which can be chosen by a student belonging to any stream, while the discipline specific elective courses are particular to only the discipline concerned. However, a student pursuing an honours degree course can choose a generic elective from any other discipline except from the honours course itself.

## Ability / Skill Enhancement Course

An ability or skill Enhancement course is aimed at providing the student with skill and ability. These courses have four (4) credits each in contrast to the core or elective course. The ability enhancement courses must be opted by a student and the student can choose papers from a pool of skill enhancement course.

## Dissertation / Report

A student can opt (Subject to conditions) a dissertation or a project work in lieu of a 6-credit discipline specific elective course in the sixth semester.

## The Notion of Credit

A student needs to earn a required number of credits in order to successfully complete a degree. The credit is closely related to the number of stipulated classes a student has to complete. The following table indicates the number of credit a student can earn for each type of indicated classes.
